

Introducing DMRV TRACE

The Digital MRV Platform for
Global Carbon Markets

WEBINAR AGENDA

 **4 May 2026**  **02:00– 3:15 PM (Qatar Time)**  **LIVE Webinar**

The Global Carbon Council (GCC) invites you to the official launch of TRACE—GCC’s first certified Digital Measurement, Reporting, and Verification (DMRV) platform.

TRACE represents the natural evolution of traditional MRV processes, which have long delayed carbon credit issuance. By digitizing the entire data pipeline, from real-time asset monitoring and data validation to structured workflows for Validation and Verification Bodies (VVBs) TRACE enhances speed, efficiency, transparency, and auditability in carbon markets.

This webinar will present GCC’s efforts in establishing an ecosystem to enable the integration of DMRV in carbon projects. DMRV supports:

- Near real-time tracking of project performance.
- Faster verification and lower operational costs.
- Ability to monitor large numbers of projects, including in remote areas.
- Stronger assurance that carbon credits are genuine and verifiable.
- Increased trust among buyers and investors.

The session will also cover the procedure for approval of DMRV solution providers and outline how interested entities can apply.

Who Should Attend ?

**Project
owners**

**Validation & Verification
Bodies (VVBs)**

**DMRV solution
providers**

Introducing DMRV TRACE

The Digital MRV Platform for Global Carbon Markets

WEBINAR AGENDA

4 May 2026

02:00– 3:15 PM (Qatar Time)

LIVE Webinar

TIME (2 PM Doha time)	SESSION	SPEAKER
► OPENING		
02:00 PM	Welcome & Opening Remarks GCC sets the context for the session and introduces the Digital MRV platform, TRACE.	GCC Representative
► SESSION 01		
02:10 ~ 02:25 PM	Role of DMRV in current Carbon Markets	GCC Representative
02:25 ~ 02:35 PM	DMRV and Energy Access Program (EAP)	GCC Representative
► SESSION 02		
02:35 ~ 02:50 PM	Procedure for Approval of DMRV Solution Provider	GCC Representative
02:50 ~ 03:10 PM	Introducing TRACE: Live Platform Demonstration A live walkthrough of the TRACE DMRV platform, including Project Proponent and VVB views.	Product Lead NGX
► STAKEHOLDER SESSIONS		
03:10 ~ 03:25 PM	LIVE Q&A Session Open discussion with GCC and NGX teams.	GCC / NGX
03:25 ~ 03:30 PM	Next Steps & Closing Remarks Guidance on getting started with TRACE, including registration links for Project Proponents and VVBs.	NGX CEO / Mohamad El Nahi
